

Wrist Course

A Wrist Course was conducted on Feb 23rd and 24th at RALC by Department of Orthopaedics and EWAS (European Wrist Arthroscopy Society). It was a two day event with 2 foreign faculty Dr Michel Levadoux from France and Dr Eva Maria Baur from Germany. I was the course coordinator, this course was conducted last year as well in our centre. As of now this is the only course available for wrist arthroscopy in India. Our course had 30 registration from all over India, with the course fee 30,000 to 35000 and it was well received by the delegates. I am attaching the picture of our course.
