

‘Hypertension Awareness Week and Free Screening Camp’

On account of World Hypertension Day, Hypertension awareness campaign was conducted by the Department of General Medicine between 14th to 17th May 2018. Dr.Karthik, Assistant Professor of General Medicine was the Chief Coordinator of the programme. A total of 169 patients were a part of this campaign. 10 patients with newly detected hypertension were found and appropriate treatment initiated. In all known

hypertensive treatment was optimized. All participants were given pamphlets with information about hypertension, its dangers and life style modification to combat hypertension. This campaign was in sync with WHO theme 2018 “KNOW YOUR NUMBERS”.
