

Pelvic Anatomy Workshop conducted by Department of OBG

It is with great pleasure, we would like to inform that the Department of Obstetrics and Gynaecology, Ramaiah Medical College has conducted a Pelvic Anatomy Workshop on 30-08-2018 at our state of the art - Advanced Learning

Centre. This workshop was organised looking at the importance of the topic, its demand and usefulness for the PG curriculum. The workshop featured basic practical aspects of pelvic anatomy dissection and understanding. The highlights of the workshop were that all lectures were followed by practical demonstration on the cadaver, with a multidisciplinary approach involving OBGYNs, General Surgeons and Urologists in order to have more clarity and understanding. A hands on demonstration to the first come postgraduates was also given. The program was well received by all and 50 OBGYN postgraduates from various Institutions attended the workshop. The workshop has been assigned 2 KMC credit points.

Dr. Pallavi, Professor & HOD, Dept. of Gynaec Oncology, Kidwai Memorial Hospital, added immensely to the success of Workshop by demonstrating retroperitoneal which is the field of Oncologist.

Dr. K. Umadevi, Former HOD of OBG RMC she was the mentor for organizing the workshop.
