

Problem based learning (PBL)

Problem based learning (PBL) was conducted for the 4th term MBBS students on the topic of Hypertension from 21st to 25th January 2019. This was coordinated by the Medical Education Unit and Principal and Dean, Dr. Medha Rao. The students were divided into small groups in the Library and were given three case scenarios. Faculty from different departments facilitated the PBL session in each group over five days. Students were motivated to self learn, frame learning objectives and discover answers, thus covering the topic.
