GHENT UNIVERSITY

Ghent University (Dutch: *Universiteit Gent*, abbreviated as UGent, is a public research university located in Ghent, Belgium. It was established in 1817 by King William I of the Netherlands. After the Belgian revolution of 1830, the newly formed Belgian state began to administer the university. In 1930, the university became the first Dutch-speaking university in Belgium, whereas French had previously been the standard academic language in what was *Université de Gand*. In 1991, it was granted major autonomy and changed its name accordingly from *State University of Ghent* (Dutch: *Rijksuniversiteit Gent*, abbreviated as *RUG*) to its current designation.

Ghent University is one of the biggest Flemish universities, consisting of 44,000 students and 9,000 staff members. The University also supports the University Library and the University Hospital, which is one of the largest hospitals in Belgium. It is one of the greatest beneficiaries of funding from the Research Foundation - Flanders (FWO). Ghent University consistently rates among the top 100 universities in the world. Our 11 faculties offer more than 200 courses

India is now going through an epidemiological transition, where infectious diseases are receding as causes of adult morbidity and mortality, whereas non-infectious diseases are assuming menacing proportions. The risk factors associated with changing lifestyle have increased the mortality rate because of coronary heart diseases, diabetes, hypertension and neurological disorders.

The World Bank Health Sectoral Priority Review has projected a doubling of cardio-vascular disease mortality rate in India between 1985 and 2015: Truly, a challenge of the new millennium. Certainly, an opportunity for those who desire for societal well-being. PES Institute of Medical Sciences & Research is the right step in this direction that reflects the care, concern and commitment of the PES GROUP for the societal well-being.

SAO PAULO

São Paulo is a municipality in the Southeast Region of Brazil. The metropolis is an alpha global city and the most populous city in Brazil, the Americas, the Western Hemisphere and the Southern Hemisphere. Additionally, São Paulo is the largest Portuguese-speaking city in the world. The municipality is also the world's 4th largest city proper by population. The city is the capital of the surrounding state of São Paulo, the most populous and wealthiest state in Brazil. It exerts strong international influences in commerce, finance, arts and entertainment. The name of the city honors the Apostle, Saint Paul of Tarsus. The city's metropolitan area, the Greater São Paulo, ranks as the most populous in Brazil and the 12th most populous on Earth. The process of conurbation between the metropolitan areas located around the Greater São Paulo created the São Paulo Macrometropolis, a megalopolis with more than 30 million inhabitants, one of the most populous urban agglomerations in the world.

UCLAN UK

University of Central Lancashire (UCLan) is a government-run institution offering higher education, based in the city of Preston. Initially known as the Harris Art College, UCLan has its roots in the institution for the Diffusion of Useful Knowledge, set up in the year **1828**. The institution then operated in a classical-revivalist building located on Cannon Street. UCLan went through various names and structural changes over the years and adopted its current name in 1992 after Privy Council granted it the university status. The **academic structure** of UCLan is categorized into several schools offering 400 undergraduate and over 200 postgraduate programs, either part-time or full-time. The university extends **career-oriented education** in various disciplines of arts, engineering, applied and biomedical sciences, business and management, psychology, social science, community service, design and fashion, medicine and nursing, language and global studies, journalism, media studies, and sports. UCLan is a diverse community of about **30,000 students** from over 100 countries across the globe, out of which 58% are females and 48% are males.

The **University of Angers** (French: *Université d'Angers*) is an institution of higher education in the town of Angers in western France. It began as the School of Angers in the 11th century and became a university in 1337. In 1432, the Faculties of Medicine, Arts, and Theology were added to the Faculty of Law. The university was closed in 1793 during the French Revolution, and in 1971 a successor was established with little ties to the past institutions. Université d'Angers offers flexible options for students to create a program schedule to fit their academic needs and language level. Located in the famous Loire Valley, Angers is situated among an abundance of vineyards and famous French chateaus and is only about 90 minutes by TGV from Paris.

The university's history dates back to 1080; however, like many French universities, it was abolished during the French Revolution. The modern Université d'Angers was created in 1971 following the expansion of university centers throughout France.

Today, Université d'Angers is made up of eight different colleges, spanning over three campuses. The university offers a wide variety of courses taught in French and in English and offers French as a foreign language to students at various language levels.

UNIVERSITY OF BRITISH COLUMBIA, VANCOUVER

The University of British Columbia is a public research university with campuses in Vancouver and Kelowna, British Columbia. Established in 1908, UBC is British Columbia's oldest university. The university ranks among the top three universities in Canada. With an annual research budget of \$600 million, UBC funds over 8,000 projects a year.

UNIVERSITY OF GRONINGEN

The University of Groningen is a research university with a global outlook, deeply rooted in Groningen, City of Talent. Quality has had top priority for four hundred years, and with success: the University is currently in or around the top 100 on several influential ranking lists. Internationalization is one of the main focus points on the strategic policy agenda of the University of Groningen, and an important instrument in the improvement of quality, innovation and diversity. More than 120 nationalities currently study or work at the University.

UNIVERSITY OF ILLINOIS, CHICAGO

The largest university in one of the world's most vibrant cities. The University of Illinois at Chicago is an acclaimed research institution with 16 colleges dedicated to the discovery and distribution of knowledge. The University of Illinois at Chicago traces its origins to several private health colleges that were founded in Chicago during the 19th century. In the 20th century, new campuses were built in Chicago and later joined together to form a comprehensive

learning community. In the last three decades, UIC has transformed itself into one of the top 65 research universities in the United States.

The University of Illinois at Chicago is an open research university which was established in 1982. It is known to operate the largest medical school in the United States and is associated with the Universities Research Association and Great Cities Universities. In 1946, a temporary branch was opened which was named Chicago Undergraduate Division. Around 4,000 students enrolled for this branch. Later on, it was transformed into a permanent university which is now known as the University of Illinois. The university was designed by Chicago based architects, Owings, Walter Entsch and Merrill. It is constructed in brutalist-style design. UIC comprises of three campuses and is home to about 29,000 students and 25,000 faculty members. These campuses cover a wide area of University Village and Little Italy in Chicago. The campuses depict the field theory of Walter Nestch. Also, the campuses are built in a way that creates a traditional ambiance. The West Campus is the oldest of all and was constructed in Gothic style.

Students and faculties from following intuitions visited our institute and underwent obervership, training and hands on training in clinical, laboratory and research area. Each of the students submitted feedback after training.
