

The Department of Physiotherapy conducted two Transdisciplinary workshops on 2nd and 3rd of June in conjunction with BIMRA. The workshop on 2nd June was on Obstetric Brachial Plexus Injury. The Faculties were an eminent team of health professionals from Ahmedabad; namely Dr Nischal Naik (Plastic surgeon), Dr. Maulin Shah (Orthopaedic Surgeon) and Tejas Patel (Paediatric Physiotherapist). The workshop was attended by more than 40 delegates consisting of Orthopaedic surgeons, Plastic surgeons and Physiotherapists. The morning half consisted of interactive presentations and case discussions while the afternoon half had concurrent sessions for Physiotherapists and Surgeons consisting of treatment skill demonstrations.

The workshop on 3rd June was on Gait Analysis in Cerebral Palsy. The faculties were well known National and International professionals working in the field of management of Cerebral palsy and Gait. The National Faculties were Dr Ramesh Debur, Dr Dhiren Ganjwala, Dr Jayanth Sampath, Dr Taral Nagda and Dr Chasnal Rathod. Two International Faculties Dr Paul Selber and Dr. Reinald Brunner did a live streaming of their presentations from Australia. The workshop extensively covered the fundamentals of gait biomechanics to technological advances in the field of gait analysis. The workshop was attended by more than 50 Physiotherapists and Orthopaedic surgeons.

Both the workshops were well appreciated by all the delegates
