LARGEST POLYCYSTIC KIDNEY REMOVED FROM A PATIENT'S BODY BY A TEAM OF DOCTORS

The record for removing the largest Polycystic Kidney (measuring 31 cm x 13 cm) from a patient's body was set by Dr. Puvvada Sandeep (born on May 28, 1983) of Bengaluru, Karnataka. He, along with his team of five doctors, performed Nephrectomy on a 47 year old patient, suffering from Adult Polycystic Kidney disease along with Chronic Kidney disease and removed the single left kidney weighing 7.2 kg in approximately 90 minutes on August 28, 2019 at the Ramaiah Memorial Hospital, Bengaluru, as confirmed on November 30, 2019.
